

Morgan,

On Jan. 28th the Board of HAC voted to pledge our support for this great project.

In addition you have my personal and professional support, we need better transportation alternatives and streetcars will add vintage flavor to area that deserve them, especially the Hilltop.

No one was able to pledge time to be an active partner, however, we are willing to send an email like this or this email out to our lists, in hopes that you may be able to find some able hands.

Let us know how we can help in the future, it has been great working both with you and Merilee.

Jeanie Peterson
